Objective:

I am a full stack web developer that is results oriented. I have a vast knowledge of serverside and client side websites and app creation. I enjoy creating user friendly web applications with an emphasis on making it the best user experience possible. I have a background in HTML, CSS, JavaScript and enjoy working with modern frameworks for functionality and design. I am eager to collaborate with innovative projects and I love working with a team that is diverse professionally and personally which allows me to learn more and grow professionally and personally.

Education:

Rabbinical School of greater Ft Lauderdale
Bachelors in Rabbinical studies

Skills:

Front end development: HTML, CSS, JavaScript, React, and Angular

Back end development: Node.js and Express.js

Database management: MongoDB, Google Firestore

Version control: Git, Github

Design: Bootstrap

Testing: Jest and Postman

Hosting: Heroku, Netlify, AWS, GitHub Pages

Experience:

May 2022 - Nov 2023

CareerFoundry full stack development bootcamp.

Nov 2009 - Present

Marketing consultant with an emphasis on product development and launch. I manage marketing budgets across Google, Amazon, and social media. I manage the creative aspects and a product's design through the life of the product. I guide and educate my clients through the ecosystem of 3rd party platform sales. My clients are from a broad spectrum, but all have one thing in common, to develop products that are solving a specific problem that has not been solved before.

Languages:

English, Yiddish, and Hebrew

Hobbies:

Sketching, painting, playing the electric bass, and reading
